

will collins design

award winning sustainable **custom designed** homes

- Ecofriendly
- Organic
- Creative Designs
- Nature Inspired
- Reliable
- Informative
- Solution Orientated
- Innovative 3D Presentation

“As developers of The Ecovillage at Currumbin we have found the design input given by Will Collins to be excellent. His knowledge of designing for the sub-tropical climate is very sound and his designs always incorporate sensible and creative ideas that enhance a homes comfort.

All the homes Will has designed here have no air-conditioning and incorporate great orientation and climatic outcomes.

We have thoroughly enjoyed collaborating with Will on the many occasions, including the design of The Living Laboratory which won the highest

honour in Australian green building - The 2008 Nationals Greensmart Building of the Year.”

Chris Walton, Managing Director,
Landmatters CV Pty Ltd
